

NUTANIX IN 30 SECONDS

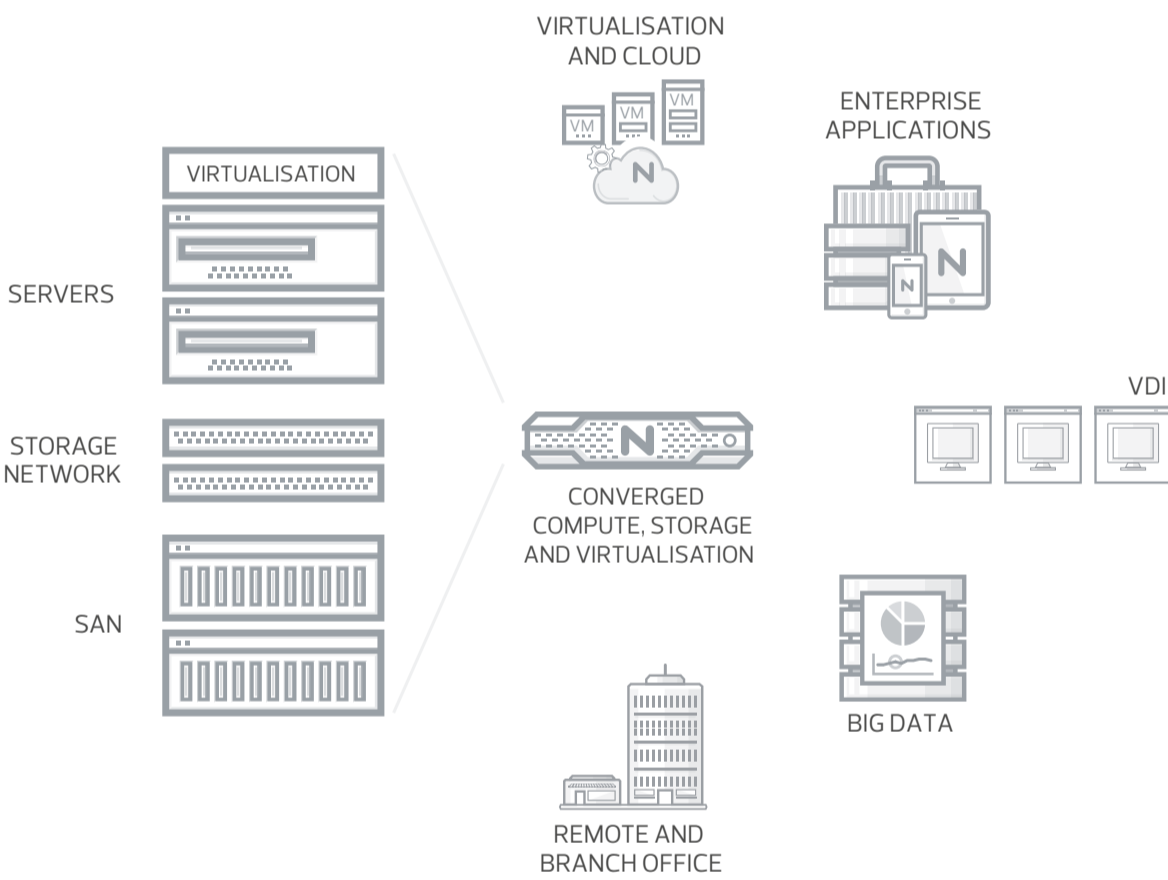

What Does Nutanix Do?

Nutanix delivers an Enterprise Cloud Platform that brings public cloud-like simplicity to enterprise datacentres, enabling IT to focus on the applications and services that power their businesses.

What Does The Nutanix Enterprise Cloud Platform Include?

Nutanix combines compute, storage and virtualisation in a hyperconverged platform leveraging industry-leading servers from Nutanix, Dell, Lenovo, Cisco and more. The Enterprise Cloud Platform supports all enterprise applications at any scale, including virtualised applications, bare-metal services and container-based applications.

What Makes Nutanix Better?

Nutanix melds web-scale engineering from large Internet and cloud companies, such as Google and Amazon, with intuitive consumer-grade design delivering a turnkey infrastructure solution that is predictable to scale, easy to deploy and simple to manage – delivering a significantly lower TCO.

Why Nutanix and CDW?

In addition to being an Elite Partner with Nutanix, CDW delivers the highest level of technical support and product knowledge. At CDW, we have the expertise to assess, design and implement a solution that includes the advanced feature sets within the Nutanix portfolio. We also offer additional Nutanix resources through our Dell and Lenovo partnerships.
